USER CONFERENCE

8 - 10 OCTOBER 2025

MARBELLA, SPAIN

THE EVENT

CONNECTING DESWIK USERS FROM ACROSS EUROPE, EURASIA AND AFRICA

Three days filled with hands-on training sessions, global use cases, practical tips and tricks, product demonstrations, feedback workshops, and plenty of networking.

BY ATTENDING DESWIK CONNECT, YOU WILL:

- Expand your network and connect with fellow users and industry leaders.
- Discover innovations and explore new features and applications through live demos and technical presentations.
- Gain insights and learn from real world cases studies and success stories.
- Enhance your skills and participate in workshops and training sessions.
- Influence developments and share your feedback directly with our product team to shape the software that you use daily.

DAY 01 - PRELIMINARY PROGRAM

WEDNESDAY 8TH OCTOBER

Subject to changes.

THEME: OPTIMISATION					
8:30 - 9:30	Registration and Coffee				
9:30 - 9:50	Welcome Address COO • EMEA & CIS Regional Manager • Sub-Saharan Africa Regional Manager • Deswik				
9:50 - 10:20	The Golden Age of Optimisation Sales & Marketing Manager • Deswik We'll delve into the profound transformation occurring within the mining industry facilitated by the application of Industrial Mathematics software. As the use of mathematical optimisation in mining enters its 'golden age', we explore the interplay between vast data streams and advanced mathematical models that have been integral to fostering efficient, sustainable, and profitable operations.				
10:20 - 11:00	Client Keynote Presentation				
11:00 - 11:15	Panel Discussion				
11:15 - 11:45	Break				
11:45 - 12:15	Client Presentation			Client Presentation	
12:15 - 12:45	Client Presentation			Client Presentation	
12:45 - 13:00	Panel Discussion			Panel Discussion	
13:00 - 14:00	Lunch				
	WORKSHOPS	UNDERGROUND MASTERCLASSES	UNDERGROUND MASTERCLASSES	SURFACE MASTERCLASSES	SURFACE MASTERCLASSES
14:00 - 15:30	Underground Optimisation Workshop (SO & APEX) Deswik APEX Product Specialist	Building Efficient Schedules: The Power of Automatic Dependency Rules Deswik Consultant Specialist Discover how to streamline your scheduling process using automatic dependency rules in Deswik. This session covers practical tips for managing both automatic and manual dependencies, helping you build better schedules.	From the Field to the Desk: Unlocking the Power of Deswik Survey Deswik Consultant Specialist Learn how to streamline your survey processing and reporting in Deswik with this masterclass.	Enhance your Work with Process Maps Deswik Consultant Specialist Designed for open pit planners, this session explores how to get the most out of Deswik's process maps. Learn practical tricks and tools to streamline workflows, improve visibility, and drive consistency across your planning process using tailored process map techniques.	Bridging Geology and Engineering: For Optimisation Purposes Deswik Consultant Specialist Explore options to configure and adapt your geomodels to be fit for purpose in optimisation and design.
15:30 - 16:00	Break				
16:00 - 17:30	Surface Optimisation Workshop (GO) Deswik GO Product Specialist	Scheduler Troubleshooting & Underground Planning Decision Auditing Deswik Consultant Specialist Learn how to spot issues before they become problems. This session shares practical tips and tricks for troubleshooting your schedules and auditing underground planning decisions. You'll walk away with tools to build more efficient schedules.	Upskilling in Underground Drill & Blast Design Deswik Consultant Specialist This session is all about working smarter with your D&B designs. Learn practical tips, time-saving tricks, and best practices using Deswik.UGDB to improve accuracy, speed, and confidence in your underground drill & blast workflows.	Electrification & Haulage Planning with LHS Deswik Consultant Specialist Explore how Deswik.LHS can support the transition to electric fleets by comparing diesel and electrification scenarios. Discover how to model both options effectively and use scenario reporting, integrated with Power BI, to visualise and communicate the impact on haulage performance, costs, and emissions.	Revolutionise Pit Design with Automation Deswik Consultant Specialist This masterclass will show you how to use Deswik.SPD Autopit to quickly generate pit designs and design diverse scenarios.
17:30 - 19:00	Break				
19:00 - 23:00	Welcome Dinner				

THEME: OPERATIONS & DATA MANAGEMENT					
8:30 - 9:00	Coffee				
9:00 - 10:00	<p align="center">Bridging the Gap: From Planning to Execution through Smart Integration Director - Strategic Product Portfolio Management • Sandvik Head of Operational Systems & Enablement • Deswik</p> <p align="center">Hear how integrated planning and equipment data flows are transforming decision-making on site by closing the loop between intent and action.</p>				
10:00 - 10:15	Panel Discussion				
10:15 - 10:45	Break				
10:45 - 11:15	Client Presentation			Client Presentation	
11:15 - 11:45	Client Presentation			Client Presentation	
11:45 - 12:15	Client Presentation			Client Presentation	
12:15 - 12:30	Panel Discussion			Panel Discussion	
12:30 - 13:30	Lunch				
	WORKSHOPS	UNDERGROUND MASTERCLASSES	UNDERGROUND MASTERCLASSES	SURFACE MASTERCLASSES	SURFACE MASTERCLASSES
13:30 - 15:00	<p align="center">MDM Workshop Deswik MDM Product Specialist</p>	<p align="center">Short Term Planning, What Tool Should I Use? Deswik Consultant Specialist</p> <p>Choosing between Deswik.Sched and Deswik.OPS for short-term planning isn't always straightforward, they can seem to overlap in some scenarios. In this masterclass, we'll break down when and why to use each tool, depending on your planning focus, detail, resources and workflows.</p>	<p align="center">The Use of Resource Levelling Through the Planning Spectrum Deswik Consultant Specialist</p> <p>This masterclass explores how resource levelling can be strategically applied across the entire mine planning spectrum, from long-term scheduling to short-term execution using Deswik.Sched.</p>	<p align="center">Managing Drainage & Rehabilitation Requirements with Deswik Enviro Tools Deswik Consultant Specialist</p> <p>Deswik's Enviro Tools assist in surface water management and mine rehabilitation activities – ranging from water catchment analysis, landform reshaping, and dozer push modelling. A key feature is how simple the inputs can be, to generate comprehensive outputs.</p>	<p align="center">Pit Smarts: Hacks and Insights to Level your Optimisation Deswik Consultant Specialist</p> <p>Discover the shift from traditional pit optimisation to Direct Block Scheduling (DBS) and learn best practices for project setup and modelling with Deswik.GO – streamline workflows and unlock greater value.</p>
15:00 - 15:30	Break				
15:30 - 17:00	<p align="center">OPS & APPS Workshop Deswik Operations Product Specialist</p>	<p align="center">Speed Up your Design Process with Auto Design in Deswik Deswik Consultant Specialist</p> <p>Learn how to quickly generate a simple longitudinal LHOS mine design using Deswik's Auto Design tool. This session will walk you through key steps, tips, and settings to help you streamline your design process and reduce manual work.</p>	<p align="center">Underground LHS, Handling Complex Haulage Networks Deswik Consultant Specialist</p> <p>Learn how to model and optimise underground haulage systems using Deswik.LHS. This session covers from managing complex stockpiles to using waste rock as backfill, helping you streamline material flow in challenging underground setups.</p>	<p align="center">Uncover the Full Potential of Deswik Spatial Deswik Consultant Specialist</p> <p>In this masterclass we will run through a menagerie of lesser known tips and tricks in Deswik.Spatial</p>	<p align="center">Design with Confidence: Surface Drill & Blast Applications Deswik Consultant Specialist</p> <p>This masterclass will show you how to do a drill & blast design from a baseline, copy to a new pattern, use the plane definition attributes in plots and use alternative target surfaces.</p>
17:00 - 19:00	Break				
19:00 - 23:00	Conference Dinner				

THEME: THE FUTURE IS DESWIK			
9:00 - 9:30	Coffee		
9:30 - 10:00	<p>Working Backwards for Innovation CTO • Deswik</p> <p>Hear our CTO discuss some principles and pitfalls of innovation and how these help shape our future at Deswik</p>		
10:00 - 10:30	<p>A Window to the Future, Today: New Deswik Product Launch Product Manager Scheduler • Deswik</p> <p>Join us for an exciting presentation as we unveil the nextgeneration Deswik planning tool for open pit mines.</p>		
10:30 - 11:00	<p>Data Without Frontiers: The Next Chapter of Deswik MDM Head of Product Management • Deswik</p>		
11:00 - 11:15	Panel Discussion		
11:15 - 11:30	Closing Address		
11:30 - 12:00	Break		
12:00 - 12:30	<table border="1"> <tr> <td>Client Presentation</td> <td>Client Presentation</td> </tr> </table>	Client Presentation	Client Presentation
Client Presentation	Client Presentation		
12:30 - 13:00	<table border="1"> <tr> <td>Client Presentation</td> <td>Client Presentation</td> </tr> </table>	Client Presentation	Client Presentation
Client Presentation	Client Presentation		
13:00 - 13:30	<table border="1"> <tr> <td>Panel Discussion</td> <td>Panel Discussion</td> </tr> </table>	Panel Discussion	Panel Discussion
Panel Discussion	Panel Discussion		
13:30 - 14:30	Lunch		
17:00 - 21:00	Optional Farewell Dinner		

OTHER SESSIONS YOU'LL FIND AT DESWIK CONNECT:

MENTORING SESSIONS

Book one-on-one time with a Deswik consultant to work through problems.

SOFTWARE DEMONSTRATIONS

See Deswik software in action, ask questions and learn how to use the tools.

VENUE

Hard Rock Hotel Marbella

Urbanización Nueva Andalucía,
C. Las Violetas, Nueva Andalucía,
29660 Marbella, Málaga, Spain

ACCOMMODATION

Take advantage of the accommodation discount we've secured at the conference venue. Book your room at the registration link.

Hard Rock Hotel Marbella:

Single occupancy: €251 (including 21% VAT)

Double occupancy: €281 (including 21% VAT)

COST

EARLY BIRD PRICE (UNTIL 30TH JUNE)

Conference Pass € 1,950 (including 21% VAT)

STANDARD PRICE

Conference Pass € 2,250 (including 21% VAT)

All prices are in Euros and inclusive of taxes.

The conference pass includes access to the conference, catering, welcome and conference dinners.
